Question 1:

Attach the dataset and mentioned problem statement below,

- A sizable department has to be maintained, for the purposes of recruiting new talent
- More often than not, the new employees have to be trained for the job and/or given time to acclimatize themselves to the company
- Hence, the management has contracted an HR analytics firm to understand what factors they should focus on, in order to curb attrition.
- In other words, they want to know what changes they should make to their workplace, in order to get most of their employees to stay.
- Also, they want to know which of these variables is most important and needs to be addressed right away.
